Kernan Consulting Announces New Peer Group Coaching Program called The Chairman's Roundtable

San Diego, CA (April 15th, 2011) Kernan Consulting (www.KernanConsulting.com), an international technology consulting company offering Coaching, Advising and Mentoring programs to the small IT VAR, announced today that it will be introducing another new Group Coaching Program starting in May. This new **PEER GROUP CONSULTING PROGRAM** is called the Chairman's Roundtable Coaching Program.

"This Consulting package tailored to you, and will help get you working "ON" your business and not "IN" your business. We will review **The Five Key Building Blocks of your business** including Leadership, Business Development, People, Professional Services and Finance. We will go through every department in your business from Accounting to Operations and make them better. We will share our Business Blueprint of best practices with the members. It is half education and half collaboration. Other like minded individuals will be part of the group creating a culture of success. It will also show you how to rapidly build your business while controlling costs at the same time", explains James Kernan, CEO of Kernan Consulting. "We also added some other coaches that will be available to answer any of the questions that anyone may have. I will be focused on Sales/Marketing/Leadership. Kevin is focused on Finance, while Gary will be the go to Coach for all Technical and Service Delivery questions, and Mike will cover Operations." further explains James.

We will deliver an educational tele-coaching call 1x a month – bundled with a separate Q&A call. We have over 25 Training Sessions and over 250 business templates available. Each call will be recorded so you can go back and listen at your leisure and follow along in the workbook. We also will have a private forum for member communications and questions. We will review every department in your business from accounting to operations, helping CEO's become more successful and profitable.

The program starts with a business assessment giving us a gauge of where you are at. Then go through the rest of the sessions, one per month giving you time to make progress and complete tasks. We will review things like your sales process, accounting procedures, helpdesk best practices and the balance between work and family.
