**Kernan Consulting Launches The Halo-Network,
a Nationwide Service Network for VAR's and MSP's**

San Diego, CA (November 5th, 2011) Kernan Consulting (www.KernanConsulting.com), an international technology consulting company offering Coaching, Advising and Mentoring programs to the small IT VAR, announced the launch of The Halo-Network.

“The launch of The [Halo-Network](#) was in response of many of our customers who couldn't compete on the national stage. We are helping the small VAR and MSP compete with larger ones. By gathering all the resources of hundreds of member companies, we collectively become a superpower. We can compete on the national stage, and with millions of dollars of purchasing power the large vendors will work closely with us,” states Gary Wallin Co-Founder of The HALO-Network.

The HALO-Network is membership based national service network that is able to provide a wide range of services. With over 5,000 service technicians nationwide, the network has service coverage in all 50 states and over a billion dollars of purchasing power.

The Network offers complete IT solutions and support from project management and network consultations, design and implementation to 7x24 management and supporting of business network infrastructures.

The network can save its customers 30% or more on labor costs and reduce risk & complexity. With HALO's project management feature, customer's projects will be managed for them. Furthermore, by using the network of service professionals for you to choose from so you can minimize overhead and administrative hassles. The service professionals in the Halo-Network have a variety of skills at specific price points. You will get the right talent every time. You can join the network in two different ways: 1) As a buyer of services and / or 2) As a service professional.

Many have joined the network as a new revenue stream for their business. Ethics, honesty and customer service are measured and tracked. Customer service surveys will be done on transactions so we keep our customer satisfaction rating very high. “If we find any unethical practices or a members customer satisfaction score falls below 4.5 (on a scale of 1-5) then they are out of the program,” explains Gary Wallin, Co-Founder of The HALO-Network.
